GLR CASANI

**Great Lakes Ranch** has been the home of quality bred and born suri alpacas and llamas since 1981. We are honored to be one of only a handful of Americans who have made a lifelong career of raising these fascinating animals. We have always bred for what we have carefully chosen as our own breeding goals rather than just what was popular within the industry at any given time.

Many people have asked how a small ranch like ours can compete with the big operations that produce hundreds of offspring a year. Our answer is simply quality, not quantity. The results speak for themselves. The offspring from our breeding program have been and continue to be

show ring winners as well as many auction "top sellers".

4P Condor produces the kind of offspring that turns heads. His cria maintain both his great conformation and suri fleece with an added twist of bizarre color patterns. These rare and unusual color patterns not only make his offspring stand out in a crowd, but they sell.

Whether you are new to the industry or a seasoned breeder, we welcome you to visit us in beautiful Northwest Michigan. Come see the 4P Condor kids, discuss your breeding objectives and see how our breeding program has earned us the reputation of being one of America's premiere breeders of suri alpacas.
